# Capacity of Kentucky Supported Employment Services

As of 04/08/2024

## Key:

| Capacity Level | Definition |
| --- | --- |
| **Sufficient** | There is enough capacity to meet the expected demand for services without establishing waiting lists, imposing delays or actively recruiting new providers or encouraging existing providers to expand. |
| **Marginal** | There is some availability capacity, but minor delays are likely and/or short waiting lists may need to be utilized. Plans need to be developed to recruit additional providers and encourage existing providers to expand. |
| **Critical** | There is little, or no, availability capacity. Significant waiting lists and long delays to initiate services are being utilized. Efforts to recruit new providers and encourage existing providers to expand are being implemented. |
