LABOR CABINET

Training Focus

Daily Living Skills

Learn a broad range of individualized tips, techniques and use of assistive devices for clothing management, cooking, operating household appliances, cleaning, and money identification.

Communication Skills

Learn adaptive skills to help with writing, using a telephone, tactile labeling, and navigating the internet.

Orientation & Mobility

Learn to move about your home and/or community safely.

Seeking solutions for achieving greater independence.

- Low-vision and blindness Rehabilitation
- In-home customized services
- Daily living skills training
- Adaptive technology
- Connection to additional blindness resources
- Awareness services for families
- Adjustment to vision loss counseling

The services described are 90% funded by the U.S. Department of Education under the Independent Living Services for Older Individuals Who are Blind (OIB) programs and 10% funded by KY state appropriations.

Assistive Technology

Assistance in determining type and strength of appropriate reading devices and instruction in the use of technology for daily living tasks.

Eligibility

Eligibility determination will be made by an independent living counselor using your most recent vision report and an individualized assessment.
