One Transition at a Time.**

Community Work Transition Program

Empowering Students with
Disabilities for Successful Transitions

Are you ready to enhance post-school
outcomes for students with disabilities
in your school district?

The Kentucky Office of Vocational Rehabilitation (OVR) invites your school district to participate in the Community Work Transition Program (CWTP). This program is designed to support students with disabilities in achieving their career and employment goals, providing them with the tools they need to thrive beyond the classroom.

Why Participate in CWTP?

- The CWTP offers Pre-Employment Transition Services (Pre-ETS) designed to help students learn about and prepare for the workforce and postsecondary training options.
- Additionally, the CWTP offers assessment, job placement, and job coaching for students who wish to enter the workforce directly after high school and who need support from an employment specialist.
- School districts can access funding for these services through OVR.

Program Benefits

- **Improved Employment Outcomes:** Equip students with skills and experiences to secure meaningful employment.
- **Enhance Life Skills:** Foster Independence and self-sufficiency through targeted Pre-ETS.
- **Collaborative Partnership:** Work alongside OVR staff committed to student success and offer ongoing support beyond the student's transition from high school.

How to Get Started:

1. **Reach Out:** **Contact us** to express your interest in the CWTP and learn more about how it can benefit your students.
2. **Schedule a Meeting:** We'll explain the program and how it can work for your school district and students.
3. **Implement and Support:** When your school district is ready to participate in CWTP, staff will receive initial training as well as technical assistance throughout the school year as needed.

Join us in making a meaningful difference in the lives of students with disabilities. Together, we can create a future where every student has the opportunity to succeed.
