RE: Payment for Optometric Exams

It has been several years since the payment amount for an optometric exam has been raised. Recently, many vendors have been unhappy with our reimbursement amounts for this service. Effective immediately, our payment for an eye exam by an optometrist will increase to **\$65.00**.

As has been our policy, payments for eye exams by optometrists will be limited to this amount regardless of the Current Procedural Terminology (CPT) code that is billed by the doctor's office.
