RE: Visual Fee Schedule

Effective October 1, 2004, a New Visual Fee Schedule is active in the Case Management System (CMS).

Visual Fee Schedule Procedure 00001 is to be used for an optometrist's examination. Do not use Relative Value Schedule Procedures 92002, 92004, 92012, or 92014 when authorizing for an optometrist's examination.

The Vendor's Retail for Eyeglass Lenses is to be allowed for Procedures 00008 and 00009. It is not necessary to first obtain approval to allow the vendor's actual retail for Procedures 00008 and 00009.

Regardless of whether single standard vision or lined bifocal lenses are being prescribed, the vendor's retail is to be allowed. No Lined Bifocal will not be purchased. A fee has been established for eyeglasses, lenses, tint, and Ultra Violet protection.

For eyeglass frames, the following amounts are to be allowed:

- \$50.00 for plastic frames;
- \$75.00 for (metal, plastic) middle combination frames; or
- \$100.00 for metal frames.

The vendor's actual cost for contact lens/lenses, intraocular lens implant material, and low vision aids will continue to be allowed.

Prior to issuing a new pay document for visual services, please inform any vendor of the revisions that have been made in the methods and/or rates of payment for eyeglasses lenses, frames, tint, and Ultra Violet protection. Feel free to provide copies of the revised fee schedule to your vendors.
