

## OVR-19 Training Participation Form Instructions

1. This form is required for all consumers including those receiving SSI/SSDI. This is not to be confused with the Cost Sharing Form where SSI/SSDI recipients do not need to participate.
2. All comparable benefits including financial aid, scholarships, grants, etc. should be applied before the VR contribution is decided and put on the form.
3. Economic need testing doesn't apply to books, but the amount still needs to be recorded on this form.
4. Other could be anything that is not disability-related, such as supplies for classes or a specific item that a student requires for a class.
5. The amounts for all items should be totaled at the bottom and across to keep track of what has been paid.
6. The form should be signed and dated at the bottom by the counselor, and this form sent to the school.
