Assessment means services provided and activities performed to determine an individual's eligibility for VR services, to assign an individual to a priority category of a VR program that operates under an order of selection, and/or to determine the nature and scope of VR services to be included in the IPE. It also includes trial work experiences. Assessments to determine eligibility, assignment of a priority category or the nature or scope of services to be included on the IPE include, but are not limited to psychological assessments, audio logical evaluations, dental and medical exams and other assessments of personality, interests, interpersonal skills, intelligence and related functional capacities, educational achievements, work experience, vocational aptitudes, personal and social adjustments, and employment opportunities of the individual and the medical, psychiatric, psychological, and other pertinent vocational, educational, cultural, social, recreational, and environmental factors that affect the employment and rehabilitation needs of the individual.

Unless necessary to determine eligibility or participate in the assessment process or trial work; **equipment, rehabilitation technology devices, training, treatment of medical conditions, hearing aids, etc. are to be provided as planned services** rather than as diagnostic expenditures.

Transportation Services

			TRANSPORTATION
6	0	A	60A Transportation (Diagnostic purpose only)
6	0	B	60B Transportation (All Other)

Transportation means travel and related expenses that are necessary to enable an applicant or eligible individual to participate in a VR service, including expenses for training in the use of public transportation vehicles and systems. Examples of transportation services include, but are not limited to:

- a) travel and related expenses for a personal care attendant or aide if the services of that person are necessary to enable the applicant or eligible individual to travel to participate in any vocational rehabilitation service;
- b) Purchase and repair of vehicles, including vans, but not the modification of these vehicles as modification would be considered a rehabilitation technology service;
- c) relocation expenses incurred by an eligible individual in connection with a job placement that is a significant distance from the eligible individual's current residence; or
- d) Purchase of a bus pass for an individual to get to training or work.

This specifically excludes the modification of vehicles, which is to be reported in rehabilitation technology. If a vehicle is purchased with modifications, the pro-rata cost of the vehicle is reported here and the pro-rata cost of the modifications will be reported in Rehabilitation Technology.

Maintenance

			MAINTENANCE
4	0	A	40A Maintenance (diagnostic purposes only)
4	0	B	40B Shelter

9	2	J	92J Adaptive Computer Devices
9	2	K	92K Wheelchairs
9	2	L	92L Wheelchair repairs
9	2	M	92M Specialized Aids/Appliances for the Blind

Rehabilitation technology means the systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers confronted by, individuals with disabilities in areas that include education, rehabilitation, employment, transportation, independent living, recreation, home and vehicular modification, other assistive devices including, but not limited to hearing aids, low vision aids and wheelchairs. This includes the hardware portion of neuroprosthetic devices, such as cochlear implants, visual prosthetics, and motor prosthetic devices, but does not include medical and surgical procedures required for implantation of neuroprosthetic devices which should be coded as diagnosis and treatment of impairments. Rehabilitation technology includes rehabilitation engineering, assistive technology devices, and assistive technology services.

The term includes the following:

- a) Rehabilitation Engineering Services are the systematic application of engineering sciences to design, develop, test, evaluate, apply, and distribute technological solutions to problems confronted by VR individuals in functional areas such as mobility, communications, hearing, vision, and cognition, and in activities associated with employment, independent living, education, and integration into the community.
- b) Assistive Technology Devices are any items, piece of equipment, or product system, whether acquired commercially off the shelf, modified or customized, that is used to increase, maintain, or improve the functional capabilities of a VR customer.
- c) Assistive Technology Services (34 CFR 361.5(c)(6)) are any services that directly assist an individual with a disability in the selection, acquisition, or use of an assistive technology device. Services may include:
 1. The evaluation of the needs of an individual, including a functional evaluation of the individual in his/her customary environment;
 2. Purchasing, leasing, or otherwise providing for the acquisition by an individual of an assistive technology device;
 3. Selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices;

4. Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
 5. Training or providing technical assistance for an individual or, if appropriate, the family members, guardians, advocates, or authorized representatives of the individual; and
 6. Training or providing technical assistance for professionals (including individuals providing education and rehabilitation services), employers, or others who provide services to, employ, or are otherwise substantially involved in the major life functions of individuals with disabilities, to the extent that training or technical assistance is necessary to the achievement of an employment outcome.
- Generally computer hardware and basic software are not considered rehabilitation technology and should be coded as Other Services - 80A or 80D. However, computer devices and adaptive software that are necessary for a person with a disability to utilize a computer would be coded as rehabilitation technology.**

Reader Services

			READER SERVICES
7	0	A	70A Reader service for the Blind
7	0	B	70B Reader Services - Other

Reader services are for individuals who cannot read print because of blindness or other disabilities. Reader services include, in addition to reading aloud, transcription of printed information into Braille or sound recordings if the individual requests such transcription. Reader services are generally for individuals who are blind or deaf-blind, but may also include individuals unable to read because of serious neurological disorders, specific learning disabilities, or other physical or mental impairments.

Interpreter Services

			INTERPRETER SERVICES
7	0	C	70C Interpreter Service for the Deaf

Interpreter services are sign language or oral interpretation services for individuals who are deaf or hard of hearing and tactile interpretation services for individuals who are deaf-blind. Specially trained individuals perform sign language or oral interpretation. Interpreter services also include real-time captioning services for persons who are deaf or hard of hearing. Do not include language interpretation in this category, but in Other Services.

Personal Assistance Services

			PERSONAL ASSISTANCE SERVICES
7	0	D	70D Personal Attendant Service

Personal assistance services means a range of services, including, among other things, training in managing, supervising, and directing personal assistance services, provided by one or more persons, that are –

- (i) Designed to assist an individual with a disability to perform daily living activities on or off the job that the individual would typically perform without assistance if the individual did not have a disability;
- (ii) Designed to increase the individual's control in life and ability to perform everyday activities on or off the job;
- (iii) Necessary to the achievement of an employment outcome; and
- (iv) Provided only while the individual is receiving other vocational rehabilitation services. The services may include training in managing, supervising, and directing personal assistance services.

Technical Assistance Services Including Self-Employment

			TECHNICAL ASSISTANCE SERVICES
9	3	C	93C Technical assistance for self-employment/small business

Technical assistance includes consultation and other services provided to conduct market analyses, to develop business plans, and to provide resources to individuals in the pursuit of self-employment, telecommuting and small business operation outcomes.

Benefits Counseling

			BENEFITS COUNSELING
9	0	W	90W Work Incentive Follow-up

Assistance provided to an individual who is interested in becoming employed, but is uncertain of the impact work income may have on any disability benefits and entitlements being received, and/or is not aware of benefits, such as access to healthcare, that might be available to support employment efforts.

This typically involves an analysis of an individual's current benefits, such as SSDI and SSI, the individual's financial situation, and the effect different income levels from work will have on the individual's future financial situation. This assistance is intended to provide the individual an opportunity to make an informed choice regarding the pursuit of employment.

Ongoing assistance may also be provided as the individual decides on employment goals, searches for jobs, and becomes employed.

Customized Employment Services

			CUSTOMIZED EMPLOYMENT SERVICES
7	2	A	72A Customized Supported Employment Services

Customized employment means competitive integrated employment for an individual with a significant disability that is - based on an individualized determination of the unique strengths, needs, and interests of the individual with a significant disability; designed to meet the specific abilities of the individual with a significant disability and the business needs of the employer; and carried out through flexible strategies. Flexible strategies include job exploration by the individual and working with an employer to facilitate placement, including:

- a) Customizing a job description based on current employer needs or on previously unidentified and unmet employer needs;
- b) Developing a set of job duties, a work schedule and job arrangement, and specifics of supervision (including performance evaluation and review), and determining a job location;
- c) Using a professional representative chosen by the individual, or if elected self-representation, to work with an employer to facilitate placement; and
- d) Providing services and supports at the job location.
