Commissioner

TO: Office of Vocational Rehabilitation Staff  
Client Assistance Program Administrator

FROM: Cora McNabb  
Executive Director  
Office of Vocational Rehabilitation

DATE: Effective July 27, 2021

RE: Highest In-State Rates  
Short Term Training Programs 2021-2022

**The highest state rate is a factor only when requesting a training reconsideration from the district Branch Manager for approval to exceed the agency's current allowable level of training support of \$4,000.00 per year.** When requesting a training reconsideration, staff must use the Office of Vocational Rehabilitation [OVR] 19A Training Reconsideration Worksheet located on the website under [Forms](#). Amounts exceeding \$10,000.00 will require approval from the Director of Program Services or their designee.

Although services to Supplemental Security Income/Social Security Disability Insurance recipients are not subject to economic needs testing, comparable benefits must be applied. Therefore, the same training assistance procedure is to be followed. Negotiation is strongly encouraged to maximize resources to successfully serve the greatest number of eligible individuals.

Tuition rates reflect tuition in all cases and fees in some. Rates are for the entire number of credit hours needed to obtain the degree, diploma, or certification. If a student's training continues into the next school year, new rates may apply.

Certifications: some programs have several certifications that an individual can obtain without enrolling in a full program. These are too numerous to list, so in most cases, the certifications are available at the Kentucky Community and Technical College System (KCTCS). Some Associate degree programs and diploma programs embed certifications into the courses required for the degree or diploma. Ensure that embedded certifications are recorded in the Case Management System (CMS).

## Short Term Training Program Rates:

### **Administrative Office Technology**

- Degree: \$11,968.00
